EASTERN DATES TO MARCH 23

EASTERN STATES

Storms on the Atlantic

NEW YORK, March 2?.—Officers of the *City of Paris* which arrived yesterday confirm reports of terrible and unusual storms on the Atlantic. She had a long and dangerous passage. The following steamers are now overdue and some uneasiness is felt concerning them: The *Holland* which left on the 6th, the *America* which left on the 5th, *Europa* on the 9th, *Humboldt* on the 5th and the *Minnesota* on the 6th.

A Man Shoots his Wife dead

CINCINNATI, March 22.—At noon to-day, Jas. C. Davis shot his wife dead with a pistol at the Metropolitan Hotel. He claims it was an accident. Mrs. Davis was a circus performer known as Rosa.

New York News

NEW YORK, March 23.—A private cable dispatch states that the steamer *Baltic* left Queenstown to-day for New York bearing the second note of Earl Granville on the Alabama claims. She is due here on the 31st inst.

The widow of the late Henry Keep has given a hundred thousand dollars to the Opthalmic Hospital for the purpose of enlarging accommodations and making provision for the reception of free patients.

The Elliotts, bogus watch sellers, to-day applied for the arrest of Horace Greeley and others of the *Tribune*.

Another Tammany Thief—New York Matters

NEW YORK, March 23.—Wm. Hennessy Cooke of Alabama, indicted by Judge Bedford's grand jury, for forging warrants against the city, yesterday surrendered himself, and was bailed in the sum of $10,000. Cooke has been in the confidence of the Tammany Ring and is said to have important knowledge of the voucher theft, concerning which he will probably testify next week.

The prosecution will now probably bring Mayor Hall before the Court of General Sessions. Hall's counsel are jubilant over what they consider a triumphant termination of the late trial.

The New York and Boston Express Company which has been under control of the Erie management, has been discovered to be insolvent. Its indebtedness is said to be about $300,000.

Stokes' bill of exceptions makes nearly 700 pages. It takes a man a week to read it.

The Omaha Bridge.

CHICAGO, March 23.—The bridge of the Union Pacific railroad between Omaha and Council Bluffs was crossed yesterday for the first time by a loaded train which deposited goods on the Iowa side. Nearly all parties in the controversy claim a victory.

The Missouri Democrat Sold

ST. LOUIS, March 23.—The Missouri *Democrat* was sold yesterday under a recent decree of Court. The sale was made to settle a partnership. No one but parties interested being allowed to bid. It was finally knocked down to Mr. Fishback at $456,100. One half of this sum, less Fishback's third interest in the paper, is to be paid down, the balance in three and six months.

WASHINGTON CITY

Miscellaneous News

WASHINGTON, March 22.—Thos. A. Scott appeared before the Pacific Railroad Committee to-day relative to the supplemental bill for the Southern Pacific Railroad Company. After hearing Col. Scott they decided to report a bill with an amendment authorizing them to issue bonds, and providing that, instead of building 100 miles from the San Diego end each year, the Company is to build twenty five miles.

The President has signed the act granting preemption rights to settlers in California.

The President has nominated John L. Mayhugh for Register of the Land Office at Elko, Nevada, also M. F. Freeman Receiver of Public Moneys at Elko.

SENATE.—The Vice President laid before the Senate a memorial signed by over 400 women of Utah, strongly deprecating the admission of that Territory into the Union as a State. In a letter addressed to the Vice President, accompanying the memorial, a committee of ladies state that a large majority of the signers have been residents of Utah and members of the Mormon Church for many years. Numbers of them have had personal and even bitter experience of the practical workings of polygamy and have every reason to believe their wrongs would not be righted, but greatly intensified by the admission of Utah into the Union, in consequence of giving power to the Mormon Priesthood. The papers were ordered printed.

WASHINGTON, March 23.—The Supreme Court yesterday took the case No. 10, original, *ex parte* Jefferson Greer. This is one of the South Carolina cases under Enforcement Act of May, 1870. Stanberry and Johnson failing to get the constitutionality of the law before the court in the case of Avery and others on certificate of division in the court below on questions raised on a motion to quash, moved for writs of *habeas corpus* and *certiorari* to bring up this case for review, the court below having refused to discharge the prisoner. After some conversation between the court and counsel it was taken under advisement.

The Secretary of the Navy will probably issue on Monday the sentence of the Naval Court in the case of Captain Thos. Stephens, late of the United States Str. *Guerriere*, charged with mismanagement of the vessel and running her ashore on the Italian coast.

A Naval Board of Inquiry, of which Commodore W. E. Leroy is President, has been ordered to examine into the case of Capt. Egbert Thompson who is charged with endangering the safety of the *Canonicus* by towing her through heavy ice and injuring her sheathing.

Presidential Talk

CHICAGO, March 23.—A Washington dispatch says that the *Republican* this morning has the following editorial: President Grant's position on the subject of nomination for the Presidency as well as for the Vice Presidency is this: He never asked any one to vote for his re-nomination or in the slightest way to work for it. He feels it is for the people through their representatives in the National Convention assembled to say who shall or who shall not be their standard bearers. If they decide that he is the man who of all men ought to lead them in the campaign whose shadow is already upon us as they decided during the rebellion and afterwards when the rebellion came to an end, very good. He will accept the responsibility and duty to which he is called. If not, he will stand by the party and its organization all the same. If he is re-nominated and had a choice of candidate with him on the ticket he would probably select Colfax. Their relations have always been, as our Indiana contemporary says, of a most agreeable character. Colfax never interfered with the Executive in the difficult and thankless matter of appointments and patronage and has not as other Vice Presidents have done asked to be allowed any voice in selection of appointments even to reward his own friends, and if re-nominated and re-elected would probably maintain the same course in future.

CANADA

Printers' Strike at Toronto.

TORONTO, March 22.—The Typographical Society of Toronto, acting in concert with the National Labor League of the United States, announce that a general strike will take place June 1st unless the 9 hour system is adopted and a corresponding reduction for newspaper composition and other work is made. Master printers, including the publishers of all the present papers with one exception, publish a card asserting their determination to resist the demands.

WEST INDIES

The Cuban Insurrection

KEY WEST (Fla.), March ..—Later dates from Cuba bring the following intelligence:

The Insurgents under the command of Cespedes attacked the town of Sagua de Tanamo on the 5th inst. and by a feint succeeded in drawing off the garrison. While Spanish troops were pursuing Cespedes another force of insurgents entered the town by a different route and sacked the place. The movements of the insurgents were successful. A large sum of money has been forwarded by Cuban sympathizers in Porto Rico to Cuba.

In New York the landing of Carlos Garcia on the Island of Cuba is considered certain.

MEXICO

Progress of the Revolution.

NEW YORK, March 23.—A special dispatch from Matamoras says Trevino with an escort arrived at Saltillo. He levied a contribution of $20,000. He also directed the authorities at Monterey to levy $50,000. An American citizen named Longstreff refused to pay when his store was broken open and his goods stolen.

BY ATLANTIC CABLE

Dispute in Parliament on the Alabama Claims

LONDON, March 12.—In the House of Lords this evening Earl Derby, in accordance with notice given on Tuesday night, proposed his question as to the course Government intended to pursue in regard to the Treaty of Washington. He hoped the Minister of Foreign Affairs would be able to state that Her Majesty's Government was prepared to maintain the ground taken at the beginning of the present session and decline to admit claims for indirect damages made by the American Government before the Geneva tribunal. All knew that the present anxiety was great. It was an anomalous state of things that while newspapers of the country were discussing this question, Parliament should be forbidden to debate it. He warned the Government that they had already sacrificed much for peace, and to give more was dangerous. He asked further if Great Britain would appear before the Geneva Board under the circumstances.

Earl Granville replied that Gladstone and himself had already given answer to these questions, to which nothing could be added, as at present complete publicity at this juncture was impossible.

Earl Malmesbury objected to the continued silence of Parliament. If the Treaty of Washington had been discussed last year the present difficulty would have been avoided.

Lord Westbury spoke in condemnation of the conduct of the American Government. It had been distinctly promised that indirect damages would not be pressed. It would be contrary to England's honor to admit them after such a mutual understanding. Granville admitted that the treaty had been misconstrued.

Boat Race at London

LONDON, March 23.—In the University boat race to-day the Cambridge crew won by a length and a half. A blinding snowstorm prevailed at the time.

The U. S. steamer *Congress* was at Madeira March 11th.

Rebellion in India Quelled.

CALCUTTA, March 23.—General Brownlow, in command of the Looshai expedition, telegraphs on the 13th inst.: All the southern Howlos and fifteen chiefs submitted and many captives have been made. Twenty villages were destroyed. Our task is accomplished.

CALIFORNIA

From San Francisco

SAN FRANCISCO, March 24.—The *Call* this morning follows the *Bulletin* taking position against the Goat Island cession.

James Spruance came home yesterday drunk, attacked his wife with a bayonet and threatened to kill his daughter aged 17. His wife who was in bed fired at him with his own pistol, shooting him through the breast, and inflicting a severe if not fatal wound. He was then taken to the hospital, and this morning she was arrested on charge of assault to murder. He does not want to prosecute her, saying that he was to blame.

There was an immense attendance at the Handel and Hayden Societies concert last night. The oratorio of Elijah was given for the first time in San Francisco. It was voted a great success.

The steamer *Great Republic* is expected to-day from China.

Mathias DeWald, who was advertised by his friends under the supposition that he had been murdered but who turned up in the calaboose, after being hunted and shot at for persistently insulting school girls, was to-day fined $1,000, with the alternative of its equivalent in jail. He will accept the hospitalities of the city.

The McDonald Stanford Excelsior stock case is the leading topic of conversation in stock circles to-day. It is thought the committee appointed last night will report that Stanford must come up with his $120,000 or go out of the Board. A seat in the Board is worth five thousand dollars cash and as a broker who was once expelled cannot be reinstated until he settles with his creditors on terms satisfactory to them, Stanford is not likely to yield his position without a struggle.

A little son of Dr. Rice while playing around a team which was moving one of the heavy pillars for the new mint on Howard street, last evening had his foot cut off by one of the wheels.

A burglar entered the residence of detective Johnson, on Pollock street, by a window early this morning and found Mr. Johnson at home. He was entertained in such a lively manner that he will not call again. He will not be in condition for admission to fashionable society for some time.

The trial of Dickson and Murray, hackmen, for rape on the child of Catherine O'Hara is going on but will not be completed to-day. The prosecution have seventeen witnesses to examine and only eight have been examined thus far. The testimony of Dr. Johnson and other medical witnesses fully corroborates the girl's testimony and is very strong against the defendants.

The steamer *Great Republic*, from Japan and China, is telegraphed coming in.

BY STATE TELEGRAPH

Democratic Convention at Albany

ALBANY, March 23.—The Linn County Democratic Convention met to-day at 11 A. M. and after organizing adjourned to 1 P. M., when the following nominations were made: Representatives N. H. Cranor, J. T. Crooks, H. Blakely, Harvey Shelton and R. B. Willoughby; County Judge, L. N. Tandy; Clerk, J. H. Hackleman; Sheriff, A. Parker; Treasurer, James Shields; County Commissioners, William Cyrus and J. H. Washburn; School Superintendent, J. T. Stites.

The following is a list of delegates to the State Convention: Nimrod Price, George R. Helm, Mart V. Brown, Jason Wheeler, B. R. Curl, J. T. Little, H. L. Rudd, J. J. Crabtree, Perry Barlow, Preston Munkers, O. R. Coshaw and J. Henry Smith. They are instructed for George R. Helm for Congress.

Democratic Convention at Jacksonville

JACKSONVILLE, March 23.—At the Democratic Convention held here to-day the moderate wing of that party elected a full set of delegates to the State Convention to meet at the Dalles. The Convention instructed for Ben Hayden for Congress.

WASHINGTON TERRITORY.

From Olympia

OLYMPIA, March 21.—The past week has been one of unusual activity owing to the advent of railroad operations in this vicinity.

A wood chopper named Richard McCann was found drowned this morning at Tum Water. He has been missing over a month.

The Halifax *Chronicle*, in reply to an article in the Toronto *Globe*, reasserts the existence of a secret treaty for the independence of Canada. The *Chronicle* says it is creditably informed that the treaty was signed after the conclusion of the Washington negotiations by Earl de Grey for the British Government and Sir John A. McDonald for Canada. The *Chronicle* asserts that the chief points had been mutually agreed upon some years previously and it says that only Lord Lisgar, Sir John A. McDonald and Sir George E. Cartier were cognizant of the treaty.

The Boston [illegible], a careful judge of the course of politics, in an article on the break down of those who have been attempting to break down General Grant says: The nature of the opposition and the weapons employed so far from intimidating have tended to concentrate public opinion and have given it a degree of unity and strength which is rarely seen in quiet times so long before the meeting of the National Convention, and throughout the country Republicans look to the President's renomination as not only required by the best interests of the country but as necessary to his vindication and to ... own.

MISCELLANEOUS NOTES

During the last three years the administration of President Grant has accomplished the following results: First—reduced the public debt $299,649,762 03. Second, reduced the burden of taxation $80,000,000 per annum. In the same three years there have been collected $1,200,000,000, and expended $1,000,000,000, making an aggregate of two thousand two hundred millions. Out of this vast sum $1,250,000 has been lost, or less than one fifteenth of one per cent.

In the United States Senate a few days ago Sherman, Chairman of the Finance Committee, presented the budget for the year, and made an interesting financial statement. The conclusion of it is that we must pay off $50,000,000 per year of the debt and that this can be done for next year by raising a gross sum of $323,025,773, and that this sum can be raised after making the very large reduction in the existing tariff and internal taxes of $50,000,000. He says all the internal taxes save those on whisky, spirits, beer and tobacco, ought to be repealed, and they probably will be.

The Berlin correspondent of the London *Times* gives an interesting sketch of the enormous armament of the Continental Powers. Germany has at her immediate disposal 1,000,000 men, the French army will be raised to 630,000, and in twelve years will be doubled. Austria has more than 600,000 men immediately available, and in a few years the Russian army will number 1,600,000 men. The correspondent mentions, incidentally, that the "entire loss of Germany in the campaign has been lately ascertained as something like 180,000 men, rather more than one half of whom were invalided."

There is a Digger boy employed on a sheep-ranche in Monterey county, California, who is a human curiosity. He herds about eight hundred sheep all by himself, and the owner says he knows every one of them by sight and when he brings them in at night he will get on the corral fence and tell whether one of them is missing. He is about fourteen, and has a face as round as the moon, and the brightest black eyes, which sparkle with mischief. He turns more somersaults and hangs head downward from more trees than any man can count readily, and seems hardly to be aware of the existence of the sheep during the day, yet brings them all in at night.

The Dominion Customs Tariff has gone into effect in British Columbia. Among the principal changes we notice these: Flour, tariff $1 50 per barrel, under the Canadian comes in free. Butter will pay 4 cents instead of 10c. Bacon and hams 1c instead of 4c. Lard 1c instead of 5c. Eggs free instead 12½c. Black tea 25 per cent *ad val.*, and 3c per lb instead of 12½c per lb, unmanufactured. Tobacco free, instead of 35c per lb. All kinds of grain including beans and peas, come in free. On the other hand Coal oil, sugars, syrups, common soaps, wines (according to quality), dried fruits, live stock (except for breeding purposes) are slightly ... On tobacco the average is the same in both tariffs. On cigars under the old tariff the duty was $20 per 1,000, under the new it is 45 cents per pound, which makes the highest duty paid from $10 to $12 per 1,000.

GENERAL POLITICAL NOTES

Henry Ward Beecher in an article in the *Christian Union* supports General Grant for re-nomination.

The public debt is being paid off at the rate of half a million a day (Sundays excluded). This is about the rate at which Democratic administration stole in New York city the public money last year.

Democratic papers keep up their howl about "public defaulters," but without reason. The losses to the Treasury since Grant became President have been less than a fifteenth part of one per cent. No private business in the world can show such a small margin of loss.

It is a rather significant fact that the Democrats of Illinois who originally opposed the cumulative principle are now protesting against its proposed repeal. They have discovered that, however prejudicially it may operate against majorities, it is salutary and safe for the minority.

George Francis Train, the great rival of Gratz Brown of Missouri in the Presidential business, is arranging for a convention on his own account, immediately under the nose of the aforesaid Mr. Gratz Brown. He announces that on the 19th of October, "the day Lord Cornwallis handed his sword to Washington at Yorktown, in the presence of Lafayette and the Irish brigades," four thousand delegates, representing forty States, five million voters and twenty five millions of dollars in cash, will ... in St. Louis and declare him the next President of the United States. What will Gratz Brown and the Cincinnati side show do about it?

Of our candidate for Congress, Hon. Joseph G. Wilson, the Vancouver *Register* says: There is not a man in the State of Oregon who is more worthy to receive this mark of distinction. Incorruptible, learned and impartial as a Judge and jurist, indefatigable and faithful as a lawyer, honest and true as a man, public spirited as a citizen, closely identified with the early history, growth and progress of his adopted State, happily uniting in his nature the moral, intellectual and social qualities which endear men to their fellows, his name will add a strength and popularity to the Republican ticket that precludes every probability of a defeat.

The New York Custom House Investigation

The testimony of General Porter in the New York Custom House investigation puts the whole matter in a different light from that in which it has been stated by President Grant's defamers. This testimony makes good the following points. We quote from a California paper:

Grant and Porter both desired that Leet should not enter the Custom House and after he had entered it requested him, with all the delicacy that could be expressed to a friend in whom they had confidence, to resign; furthermore, that Leet obtained the General Order business without the knowledge of either the President or Porter; that the letter from Grinnell introducing Leet was written at the request of General Rawlins, and a letter is furthermore produced from the President's Private Secretary to Collector Murphy, upon his entering upon the duties of his office, requesting him upon no account to appoint any one who sought a place upon either his or the President's name, and that his (Porter's) only desire was that the patronage of the office be so distributed as to render efficient service to the country and the cause of the Administration. Another letter is introduced in which a request is made in behalf of the President that if any persons have been employed in the Custom House upon representations that they are particular friends or favorites of the President, that they be at once discharged. The testimony of General Porter explains all of those insignificant things that the Democrats have been trying to magnify into mountains of evidence of iniquity, and will now reverse the situation by placing the prosecution upon the defense, by compelling them to attempt to make good their charges that were based upon the flimsiest of *ex parte* testimony.

THE TERRITORIES

The reduction works at Helena, Montana, are now turning out two tons of crude silver bullion per day.

The dead body of a man about 40 years old, name unknown, was found floating in the water near Port Madison, Puget Sound, a few days ago.

The past winter in Montana has been very severe, and more cases of frozen limbs have occurred than in any previous one. Many have also been overtaken by the furious storms, while going from one place to another, and have perished. A good many amputations have been made of limbs rendered useless in this manner.

From the Seattle *Intelligencer*: After the conviction of Charles Watts by the jury for murder in the second degree, his attorney filed a motion for a new trial and arrest of judgment. The Court overruled the motion, and on last Monday sentenced the prisoner to be hung by the Sheriff of Jefferson county on the 3d day of May, 1872, between the hours of 10 A. M. and 4 P. M. If Watts doesn't break jail in the meantime, there may be such a thing as hanging for murder in this Territory after all.

A man calling himself John McDonald has been arrested at Seattle, charged with having committed a murder in Oregon City about two years ago. He will be brought over for trial. His real name is said to be Michael McC... He is charged with having inveigled the man he murdered into his house, which was frequented by Indians, half breeds, etc., and there breaking his head with a club, and robbing him of about $130, which the man was known to have about at the time. The authorities in Oregon offered $500 for his arrest.

For the West Side Counties

What can be more important to citizens of the counties lying on the west side of the Willamette river than the extension of the West Side Railroad through Yamhill Polk and Benton to Junction City It is the one subject in which the people of those counties are interested [illegible] that also is the importance of the enterprise to Portland The land grant for this railroad at present extends no further south than the Yamhill river The company has nothing to back its bonds so as to get money to build beyond that point Under these circumstances and moved by these considerations a member of the Republican State Convention from Benton county a county most vitally interested proposed in that body a resolution favoring the extension of the land grant from the Yamhill river southward to Junction Such a grant is indispensable for the railway development of the west side counties, and would contribute in no small measure to the growth and commercial future of Portland What is the Democratic position on this important question? The leading Democratic organ of the State attacks the proposed grant asserts that the Republican declaration in favor of it is an "act of subservience to the railroad king" and designates those who call for the grant as "poor servile tools of the monopolist" Here is something for the people of Yamhill, Polk and Benton, as well as of Portland to consider Here is another assault, exactly resembling that of two years ago on the railway development of the State Without this land grant as a basis of credit the railroad will be built no further than the Yamhill river for many years Democracy fights the grant and therefore the railroad It is the same blind malice of two years ago The people were told then that the measures proposed as to railways by Senator Williams and the Republican party were "acts of subservience" to a monopolist, and would be oppressive to the State Yet the party that said this before the election [illegible] a pledge of its Senator after election that he would carry out these very measures. And now again the very same play of duplicity has begun? How long will the people be juggled with? How long will they place confidence in a party whose professions are insincere, whose declarations are falsehoods, whose policy is duplicity and deception, and whose every attempt is to retard the development of the State? Let the people of Benton, Polk, Yamhill and Washington consider this subject on its merits All the Democratic talk about "the monopolist" is by-play The people want a railroad Are they likely to get it by opposing and defeating all the measures that are necessary to secure it?

On Freights and Fares, and "Selling Out to a Monopoly"

The utter poverty of the Democracy of Oregon in material for arguments and issues to present to the people in this political campaign is strikingly illustrated by the course of their principal organ It has begun the campaign just where it left off the last one, two years ago Then, as now, it asserted that there was a combination between the Republican party and a monopoly which threatened frightful consequences to the State What a farce this uproar was, and how it terminated we have already explained, and need not here repeat The sequel proved that the whole accusation was empty clamor, that there was nothing whatever in it, and that the measures of the alleged "combination were so important to the welfare and progress of the State that the Democratic party within three months after the election unanimously accepted them

It is now again alleged by the *Herald* that there is a combination between the Republican party and a monopoly to plunder and oppress the State This allegation has nothing to support it but flimsy inventions We propose to discuss this matter in a way so plain that no one can misunderstand it What good can the Republican party do Mr Holladay? What harm can the Democratic party do him? You complain of an advance of five cents per cental on transportation of wheat and flour by steamer to San Francisco, and seek to connect it with party politics What has party to do with it? Do you pretend that the Republican party is responsible for it, or that it can be made responsible for its continuance? Do you assert that the Democratic party can put a stop to it? You cry out for legislation on the subject. What can legislation do? Can the Oregon Legislature fix the rates on transportation on the high seas? What are you talking about? You are asking the people to elect a Democratic Legislature in Oregon, which will compel owners of vessels to reduce the rates of transportation on agricultural products from Portland to San Francisco, and you are trying to make somebody believe that this is an issue in a political campaign Was ever such twaddle uttered before? Heard ever any one the like?

What is the next thing? It is asserted that the people must elect a Democratic Legislature in order to regulate fares and freights on Holladay's railroads The Republican party, it is alleged, have surrendered to the monopolist and will not do it In this there is as much absurdity as in the other Neither a Republican nor a Democratic Legislature will reduce fares and freights on the railways, for the very good and sufficient reason that no Legislature in this State can do it The railroad companies of Oregon are organized under the general corporation law of the State Section thirty six of this law reads thus

> Every corporation formed under this act for the construction of a railroad as to such road shall be deemed common carriers and shall have power to collect and receive such tolls or freights for transportation of persons or property thereon as it may prescribe

Here then, is the law which expressly gives railroad companies incorporated in this State the right to fix their own rates for transportation Under this law the railroad companies now existing have vested rights These rights cannot be impaired The Constitution of the State Article XI Section two, reads thus

> Corporations may be formed under general laws, but shall not be created by special laws except for municipal purposes All laws passed pursuant to this section may be altered amended, or repealed *but not so as to impair or destroy any vested corporate rights*

Under the general incorporation law the railroad companies now operating in the State have acquired the right to prescribe such rates for transportation as they may deem proper It is a right of which they cannot be divested The Legislature is powerless No Court would permit such interference with or destruction of, vested rights Hence it will be seen that the clack of the Democratic organ is empty nonsense A Democratic Legislature cannot regulate fares and freights on the railroads of this State any more than it [illegible] the high seas Hence it [illegible] that in this matter Holladay has nothing whatever to ask from Republicans and nothing whatever to fear from Democrats This examination of the subject pricks the bubble which the *Herald* has blown Its assertions are twaddle its so-called arguments are nonsense. It is appealing to the people on issues that are entirely imaginary It is setting up pretenses that have no foundation in fact sense or law It asserts that there is a combination between a monopoly and the Republican party which will unless defeated rivet fetters on the people When pressed to an explanation it says fares and freights are too high and that only the Democratic party can be relied on to reduce them We have shown that no party can reduce them We have exploded the whole fabric of foolish assertion and canting partisanship The Legislature can no more fix the price of carrying wheat to market than it can regulate the price of wheat itself on the farms of Linn county The Democratic organ may as well try something else Its chosen ground is utterly cut from under it at the very beginning of the campaign

Leading English journals of recent dates have articles on the Northern Pacific Railroad, which indicate a cordial good will to the enterprise The *Morning Post, Morning Advertiser Railway Gazette Money Market Review* and other London publications commend the bonds of the Company to those seeking investments and state that these securities are rapidly growing in public estimation in England Their articles on the resources of the Company and the route to be traversed by the road are very flattering

The leading government paper of Montreal, the *Gazette*, in the course of an excellent article on manufactures, and the wisdom of establishing them in Canada remarks that "if Canada were polled to morrow on the question, there is no doubt that four fifths of the people would vote aye on the question of protection to native industry" In other words, Canada has tried free trade and does not like it, and attributes her inferior prosperity as compared with the United States to adherence to free trade fallacies

There is alarm and even consternation on the part of the "organ" lest a portion of the lands which "Governor" Miller and others have been hoping to get under the swamp land act may be taken under some of the railroad grants It seems probable enough to disinterested people that it would be at least quite as well for these lands to be used in building railroads and developing the State, as in enriching speculators who would make no use of them for the public good

SPECIAL DISPATCHES TO THE OREGONIAN

EASTERN DATES TO MARCH 23

WASHINGTON CITY

Relations with England

WASHINGTON March 23 —The tone of discussion in the British Parliament by Earl Derby and others on the *Alabama* claims creates surprise here as it was generally understood that England was favorable to an amicable settlement The position assumed by our Government in the last note of Secretary Fish to Granville remains unchanged and nothing may occur either in Parliament or in the Cabinet will be likely to disturb it The receipt of Earl Granville's reply which it is expected has been sent through Minister Schenck is looked for with considerable anxiety

Congressional

The Senate's act on yesterday in favor of placing tea and coffee on the free list surprised the best friends of the measure It was precipitated by protectionists as the readiest method of defeating any general tariff valuation The Senate bill must still pass the other House but the House being already committed by the passage of a similar bill will doubtless promptly concur in the act which takes effect on the 1st of July

The Postoffice bill if it passes the Senate as is probable it is believed its defeat in the House by five majority may be reversed

The Interior Department is preparing instructions permitting testimony as to whether public lands are mineral to be taken before county clerks where the lands are situated The Secretary of the Interior promulgated a decision that adverse claims in mineral cases under the act of 1866 must be filed within ninety days required by said act

The President has appointed Major General Humphreys Professor Pierce and Capt Ammen of the Navy, Commissioners to examine all surveys plans and proposals with reference to the Darien ship canal project and report as to its practicability and cost

Houghton introduced a bill incorporating the Arkansas Valley Railroad Company with a grant of the right of way for a railroad from the mouth of the Arkansas river via Little Rock to the foot of the Rocky Mountains; thence to San Luis Park and San Juan Range, and thence by the most practicable route to San Francisco also from the Arkansas river to meet the Atlantic and Pacific Railroad near the boundary between Texas and Indian Territory Among the incorporators are B F Mann, Volney and D Moody, all Californians

The Senate Lands Committee have reported favorably on the bill incorporating the Salt Lake A Colorado River Railroad The incorporators are Alex R Baldwin and others The committee agreed to report the Mormon bill granting almost the same route and franchise to the Utah Railroad Company

It is understood that the President will send to the House early next week a report from the Secretary of State in reply to a resolution relative to the case of Dr Howard, imprisoned by the Spanish authorities in Cuba for alleged participation in the insurrection The proofs of Howard's claim to citizenship are not as strong as they might be It is reported however that he was born in Philadelphia and that his only part in the insurrection was administering medical aid to the insurgents The attitude assumed by the Government will probably prevent Howard from being sent to the Spanish penal colony as proposed

Cole's bill passed both houses authorizing the Courts to settle the prize-money claims of the captors of the ram *Albemarle* The House committee favorably reported a bill giving the *Wyoming's* crew $230,000 prize money out of the Japanese indemnity fund

Rumors from Washington.

CHICAGO, March 23 —A Washington letter says that a prominent Senator in conversation with the President, informed him that Minister Curtin had obtained leave to return home and that he would probably resign

General Sickles does not intend returning to Spain A quarrel between himself and Secretary Fish is supposed to be the cause

The controversy continues between Omaha and Council Bluffs in regard to the legal terminus of the Union Pacific Railroad, and the transfer of freight and passengers, and other points of rivalry between the towns The recent arrangements, by which trains are run on the bridge, it was supposed would temporarily settle the matter, but both parties continue the warfare with undiminished vigor A dispatch from Council Bluffs to-night asserts that the Iowa roads, fearing the city will on Monday remove their offices to the Iowa side of the river have issued orders to their agents to bill freight and ticket passengers no farther than Council Bluffs

Purchase of Cavalry Horses

LOS ANGELES March 24 —The Government order for the purchase of cavalry horses at Wilmington has nearly filled the requisition for four hundred The cavalry service in Arizona will be rendered thoroughly efficient

A bill has been reported to the Senate by Col Kelly for the relief of Chancy M Lockwood Esq, of Wasco county, Oregon It is for extra mail service between Salt Lake City Utah and Dalles City, Oregon He received $131 000 per annum for a daily mail After taking the contract the entire mail was ordered to be sent overland which required more than double the number of coaches contemplated when the bid was put in, and the contract was continued twenty one months before the contract was relet For the same service the lowest bidder then received the contract for $240 000 per annum and is still getting that amount The committee recommend that Mr Lockwood shall be paid the difference between the amount he received ($130 000 per annum) and the amount now paid for same service ($240 000 per annum) for the twenty one months he performed the service after the mail was increased which is certainly just and proper This will amount to about $162 000 instead of $193 936 which he claimed in the bill as first presented

The Political Situation

The day before the New Hampshire [illegible] the New York *Herald* had an article on [illegible] political aspects of the times from which we take the following

The Democrats will do their best to hold the State The general political tide meantime seems to be setting against them as the returns of our two late local elections will serve to show From the returns of the latest of these local elections before us we find that the Republicans have astonished themselves by their successes in Binghamton Rochester Elmira Auburn Cohoes Poughkeepsie Utica and other places in different parts of the State Here and there we have a little Democratic success but the general run of these elections indicates [illegible] be Republicans and that while they are waxing more lively and stronger the Democrats are getting weaker and more apathetic as the passive Democracy The scattering local elections in Maine Illinois and other States indicate the same general pressure from the reviving tide of public opinion in favor of the man of 1868 as the man for 1872 But the most remarkable fact disclosed in these elections is the manifest weakness of the anti Grant Republicans as a disturbing element Half a dozen soured and disaffected Republican bolters and intriguers in the National Senate have for months past been sapping and mining and collecting ammunition for the purpose of blowing up the Administration And what with their broad sides of shot and shell on civil service reform the one term principle Custom House abuses and the sales of second hand muskets to speculators who found a market for their wares in France, and what with the co operation of the warlike Greeley with these other malcontents in their tremendous efforts to break down General Grant we had expected some mischief to the Republican party fighting under his standard in these local elections

It appears, however that the fuss and fury and patriotic indignation of the ponderous Sumner the sprightly Schurz and the gloomy Trumbull have been wasted on the wind or that their desperate efforts to upset Grant have only served to call out the people to his support Nor is there anything new or strange in a popular uprising of this kind Unjust accusations and unwarranted abuse against any man are the shortest methods of bringing out the people in his behalf It was to this sort of vulgar and scandalous personal warfare that Jackson owed his popularity as much as to the battle of New Orleans and the outrageous personal injustice of the opposition politicians in their war upon Lincoln's administration instead of weakening him, strengthened him and his cause among the honest masses of the people who have no personal revenges to satisfy and no political axes to grind In the same way we infer the war of these anti Grant Republicans upon the present administration has returned to plague the inventors

All the Democratic papers of Oregon are busy explaining away the Republican triumph in New Hampshire The loss of that State hurts them exceedingly The blow falls at a critical time

Still Another Remarkable Cure

SAN FRANCISCO, Nov 10 1871

DR A M LOryea & Co —For two years I was afflicted with Rheumatism and tried all the known remedies, but experienced nothing more than a temporary relief the disease always returning Some months since I concluded to take your Oak Weed Remedy and the result was a Speedy and Permanent Cure, the Rheumatism being entirely eradicated from the system The [illegible] is also a Tonic of the very highest order It increases the appetite, and invigorates the body I cheerfully bear testimony to its good effect upon me, and feel sure that it will do all you claim for it

Very truly yours

at ½ o clock

SUBJECT— Men Wanted

This notice frequently stares at us from the street corners and walls, but the men most needed are not to be had by advertising We want men in every office and station of life Often the nation needs men who have power to comprehend the demands of the times and to prove themselves equal to the necessity. We need men in every sphere of a social moral or political nature. We need men in the Church in Society in the State and National Legislatures and official positions The great all prevailing cry of the present day is men! Not dandies not idlers not triflers but men of nerve, brains endurance honesty and industry

For such there is plenty of room in every community and the market has never yet been crowded. The subject is an ample one, and MR. STEWART will treat it in a thorough and attractive manner He is a fluent and agreeable speaker possesses rich treasures of thought and language united with a full powerful voice, and distinct and pleasing elocution m20dtd

Wing-Dams--Willamette River, Oregon.

U S Engineer Office

PORTLAND, OREGON, February 10, 1872,

SEALED PROPOSALS WILL BE RECEIVED AT this Office until 10 A. M., on May 1, 1872 (when they will be opened in the presence of bidders), for building about 2 000 feet of Wing-Dams on the Upper Willamette River

Bidders will state the amount in U S Currency for which they will construct the Dams, per lineal foot.

Detailed Specifications with blank forms for proposals can be obtained at this office.

The amount available for the work is about $4 500 U S Currency and the Dams are to be built at Yamhill Bar Beaver and Lone Tree Rapids, Clitwood Bar, Humphrey's Rapid and Rowe's Bar

The Dams will consist of logs laid on the river bed the entire length of the Dam fastened by drift bolts to small piles driven to a depth of five or six feet, the piles being fifteen feet apart. This is to be covered by a one-foot layer of brush tied into bundles and covered with a cubic yard of gravel to every ten feet of Dam.

Bids must be in triplicate, on forms furnished from this office, and endorsed "Proposals for Wing Dams, Willamette River"

The right is reserved to reject any and all bids.

THE COUNTY HOSPITAL

COUNTY HOSPITAL
MULTNOMAH COUNTY March 21 1872

TO THE EDITOR OF THE OREGONIAN

Sir —The attention of the inmates of the County Hospital has been drawn to an article which appeared in the *Herald* last week touching the state of things in the aforesaid institution The entire statement is to use the mildest expression a tissue of lies Coffee is provided in the morning and tea in the evening *ad lib* The food is prepared in a cleanly manner, and is not unwholesome Potatoes are furnished twice a day and on an average five times in the week other vegetables In an institution of the kind dirt of a particular kind can scarcely be avoided but is generally furnished from the outside by men who have neglected to keep themselves clean, and whenever detected is promptly dealt with The lavatorial arrangements are better than at many of the boarding houses in town plenty of basons soap and hot and cold water Any inmate who is unable to wash his own clothes can have them washed for him and there is a bath which can be used every evening It is a pity the Editor of the *Herald* did not satisfy himself as to the truth of the statement before he inserted it—however it may induce him to keep his weather eye open for the future—*verbum sap*

A considerable number of the inmates are however grieved and irritated and justly at an article in the *Oregonian* of I believe Monday last stating that nine tenths of the inmates of the Hospital vibrated between the county jail and the county hospital were a set of *bummers*, and that their diseases were caused by their own "lewd practices" I am requested by several of the inmates to give the most unqualified denial to this assertion, which the Superintendent can back us in, and we feel sure will do so if any person makes inquiries of him It is rather hard for a number of decent, although poor men, who through sickness are compelled to seek refuge here for a short time It is hard for us I say to be stigmatised as a lot of loafers, and we wish the minds of the tax payers of Multnomah county to be disabused on that point

Trusting you will (in justice to all parties both officers and inmates,) insert this communication, I beg leave to subscribe myself

LOCAL BREVITIES

No fire alarms since the 17th

Straw hats will soon be in demand

A high note—one for a thousand dollars.

The thermometer stands in the seventies

Silk facings are to be abolished from coats

The *Telfair* will probably depart for Sitka on the 2d of April

The *Gussie Telfair* brought down a large quantity of furs, oils, &c

"No noose is good news," as the man said when he was reprieved.

There will be a Social Festival in the Presbyterian Church Wednesday evening

The street at the north end of John Walker's factory is being improved to the river

The eighth annual report of the Library Association has been placed upon our table.

Black and blue will be the prevailing colors for men's wear this Spring—worn in the eye mostly

The steam ferry boat "Katie Ladd" is lying near Smith's saw mill, apparently out of service

A race almost occurred between the *Oriflamme* and *Dixie Thompson* coming up the river on Saturday.

Eastern mails are coming in lively again Sixty nine sacks by steamer, and each southern train brings a batch

Time on the overland route to and from Sacramento improving It is certainly time for improvement in the mode of mail carrying on that route

Carelessness on the part of San Francisco Post Office officials was the cause of the Hong Kong sack of mail tagged "from New York via San Francisco," coming to the Portland Post Office yesterday noon.

AMUSEMENTS.

OFF FOR SALEM —Manager Waldron and Company left for Salem yesterday afternoon They stay four nights and if business is good will remain the whole week "Wine Works Wonders" will be presented at the Oro Fino soon after their return.

The Nathan Juveniles were at Omaha on the 1st and 2d inst

OLDEST BOY AGAIN —Mr C H Walker desires us to state in reply to a Salem correspondent to the OREGONIAN, that he was born December 7th, 1838. Mr Walker will willingly yield the claim of being the oldest Oregon boy, if it can be shown that there are others, as the correspondent says, who were born prior to that date Mr Walker has never been outside the bounds of what was once the Territory of Oregon He was sent in 1865 with a detachment of Co. B 1st Oregon Volunteers, he then holding a Commission as First Lieutenant of the Company, to protect the immigrant road near old Fort Hall This is the farthest he has ever been from the scenes of his childhood and youth

RECEIPTS FROM THE CHICAGO RELIEF AND AID SOCIETY —Mayor Wasserman has received from George M Pullman, Esq, Treasurer of the Chicago Relief and Aid Society, a receipt for the amounts of a telegraphic transfer of $10,000, sent October 24th, $3,000 sent December 14th, and the balance of donations in the hands of Mayor Wasserman sent March 5th $833 52 Total, $13,833 52 The next published report of the Society will show the total amount received from Portland through Mayor Wasserman

ASSAULT WITH A SLUNG SHOT —Mike Seller is accused of an assault with a slung shot upon the person of Oscar Adams sometimes called the "Flying Dutchman" The case will be heard before Justice Crich to morrow

CHARGED WITH GAMBLING —Charles Hang, a Chinaman, is accused of the offense of gambling at Carr's saloon, corner Alder and Second street The case will be determined before Justice Crich to day at 1 o clock

NEARLY RECOVERED —Judge Wilson, candidate for Congress, is nearly recovered of the severe indisposition which nearly prostrated him, and departed for his home, the Dalles, this morning

NEW POSTOFFICE —A Postoffice has been established at Cresswell, Lane county with John T Gilfrey Postmaster W J Bridgefarmer has been appointed Postmaster at Halsey

A REMARKABLE CURE OF PALSY

WM BURDEN A STOCK RAISER OF WILLOW CREEK WASCO COUNTY OREGON LOST THE USE OF HIS LEFT ARM BY PALSY WAS CURED IN TEN MINUTES BY DR ABORN COR NER THIRD AND MORRISON STREETS PORTLAND.

To the Afflicted.—I wish to state that I lost the use of my left arm from my shoulder to the end of my fingers by a stroke of palsy I could not raise my hand or arm from my side and was fearful that there was no cure for me My friends at the Dalles advised me to visit Portland and place myself under the care of Dr Aborn I arrived in Portland last evening by the Dalles boat and immediately called at Dr Aborn's office and made my case known The Doctor commenced treatment at once and in ten minutes time to my great surprise and joy he performed a complete cure so that I now have the use of my arm hand and fingers and can raise my arm up over my head with as much ease as I can raise my right arm This certainly is a very remarkable cure, and in my estimation speaks volumes to the skill of Dr Aborn I am stopping at the American Exchange Hotel, and will leave on the boat to-morrow for home I am a stock raiser and reside at Willow creek, Wasco county Oregon eighty miles south of the Dalles

What Spring Brings With It.

Regarded from a medical stand point, Spring is not the delectable season described by vernal poets. On the contrary its yield of intermittent fevers, billious attacks rheumatic pains disorders of the stomach nervous complaints and pulmonary diseases is almost as large as its crop of violets snow drops and cherry blossoms The invisible seeds of innumerable maladies rise with the morning mists and are sent broadcast by the vapors of night Who can resist their mephitic influence? Certainly not the weak by nature or those whose nervous energies have been overtasked by mental or physical labor unless they tone and invigorate their systems, and thus enable them to cope with the unhealthy influences by which they are surrounded

The only medicinal agent by which this object can be rapidly and safely accomplished is the great vegetable renovant and invigorant Hostetter's Stomach Bitters The operation of this celebrated specific is four fold It strengthens the digestive organs regulates the secretions improves the condition of the blood superinduces a regular habit of body and thereby imparts such vigor and elasticity to the whole physical structure as to render it capable of resisting the action of the poisonous miasma with which the spring atmosphere is always to some extent impregnated Here, then is a ready and certain means of escaping the disorders prevalent at this season or (if they have already fastened upon the system) of conquering them speedily and thoroughly The flavor of a medicine is not of much consequence provided it does its work properly but of Hostetter's Bitters it may be fairly said that they effect a cure without outraging the palate's sense of taste

RAILROAD LANDS.

OFFICE OF LAND DEPARTMENT
Oregon and California R R Co and European and Oregon Land Co

PORTLAND, OREGON Aug 21 1871

THE COMPANY IS NOW PREPARED TO EXTEND the pre-emption privilege of purchasing Railroad Lands in advance of the same being placed in market to all parties desirous of settling thereon on the following terms

The applicant must file with the Land Agent a claim in the form prescribed to wit

Pre-emption Claim —— No ——

To the Land Agent of the European and Oregon Land Company

Sir You are hereby notified that I have settled upon and improved (description of land) in the county of —— State of Oregon containing —— acres and that I claim a pre-emption right to purchase the said land of said Company by a valuation in accordance with the following resolution of the Directors of said Company adopted on the twenty sixth day of May A D 1871 to the terms of which I hereby fully assent

Resolved That the parties settling upon and improving any of the lands of the European and Oregon Land Company before the same are opened for market shall be entitled to the pre-emption privilege of purchase on the same terms as the Company would sell the land for without improvement, and shall be subject to the same conditions of payment as all other lands belonging to the Company when brought into market provided, such settlers shall file in the Land Office of said Company written applications giving notice of such settlement and shall accept the privilege upon the condition that when the price of the land shall be fixed notice thereof shall be sent by the Company's Land Agent through the Post Office or otherwise as may be convenient to the residence of the party claiming the pre emption privilege and if the land is not purchased by the said party within sixty days from the date of such notice, the Company will be at liberty to sell the land to any other person

(Name of applicant)

(Postoffice address)

When the application is received, a certificate signed by the Agent, obligating the Company to the terms, will be sent to the claimant in the following form

PRE EMPTION CERTIFICATE, No ——

This is to certify that —— of —— county State of Oregon has this day filed in this office a pre-emption claim to (description of purchase), and is hereby entitled to the first privilege of purchasing said land at the Company's valuation (which is to be made without reference to improvements) when the same shall be placed in market in accordance with a resolution of the Board of Directors of said Company adopted May 26 A D 1871

When the price of the above described land is fixed, notice thereof will be sent to the party to whom this Certificate is issued, and if the land is not purchased by the said party as the holder hereof within sixty days from the date of said notice, the Company will be at liberty to sell the land to any other person

(Signed)

Land Agent of the E & O Land Co

The lands will be appraised by a competent, disinterested party under oath, at their actual present value—no fancy or prospective price on the basis of similar lands in the vicinity and when appraisement is made they will be sold in quantity not exceeding one hundred and sixty acres to one person payable in five equal annual installments with interest from date of contract, at ten per cent per annum principal and interest payable in United States Legal Tender Notes. Warranty deeds given after United States Patent issues, upon payment in full.

Site of Ancient Troy

The [illegible] Allg Grec [illegible] contains a letter from Dr Schliemann giving an interesting account of his very recent discoveries made by a gentleman who is exploring the site of ancient Troy, from which we translate the following

To my surprise on Monday the 30th of October I suddenly reached a layer in which I found a large number of implements of exceedingly hard black stone Having on the following day discovered no more stone utensils but only a silver pin some broken vases with beautiful small handles and others with three small feet with the addition of a fragment of a vase bearing the sculptured head of an owl I now conjectured that I had again reached a stratum of remains belonging to a more cultivated race and that the stone utensils of the previous day belonged to a barbarous race that had conquered the country but whose sovereignty had not lasted long I was mistaken however for on Wednesday and Thursday I found a vast number of stone implements which I continue to discover to day

Respecting this age of stone I notice many circumstances which to me are enigmas I think it necessary therefore to relate the particulars in detail hoping that some of my brethren more fortunate than myself may be able to explain the points that are incomprehensible to me In the first place, I cannot understand how here, on the highest peak of the hill I reach at the depth of four and a half metres the age of stone whereas, at a distance of only twenty metres I last year discovered at a depth of five metres walls two metres in thickness which as I have already observed are of no very great antiquity and in fact on pursuing my excavations to the depth of eight metres I came across no trace of the age of stone I consequently infer that in ancient times the spot where the walls are situated was much lower, so that it was deemed necessary to fortify it and that in the succession of ages that entire locality was so filled up by the rubbish of the building on the height that it became level with the rest of the summit Otherwise I do not understand how I can find stone utensils the whole length of my excavations which already exceed fifty six metres and as far as the mouth of the great ditch, that is, to the precipitous descent This seems to me to indicate that, from the age of stone up to the present time, the hill has not increased at all on the flank by means of deposits of earth

It is in like manner difficult for me to understand how I can find objects employed by the men of the age of stone, which it was impossible for them to produce by means of the stone utensils then in use For instance, I find a great number of broken vases of clay, without ornament but of excellent workmanship Their fabricators had undoubtedly need of contrivances which could not be constructed by means of the tools of the age of stone I refer also to the circular and perforated fragments of pottery found in great abundance in the layers before alluded to belonging to the age of stone, some of them in the shape of tops, others in that of volcanic cones Those of the latter form resemble closely the gigantic tumuli of the district of Troas For this reason, and because of the stone implements found in one of them (that of Kanai Tepe,) I conjecture that the tumuli belong to the age of stone, and are perhaps older by thousands of years than the Trojan war The greater part of these circular fragments are of clay, and the ornaments and construction bear a close resemblance to those discovered in the layers I have spoken of, But many of them are of exceedingly hard black stone, and yet of such excellent workmanship, that it is altogether incomprehensible how they could have been fashioned by means of clumsy stone tools. Under all circumstances the round hole that perforates them could not be made by an implement of stone On the lower side of these small stone tops, etc one can observe marks of the disposition of the men of that age to grave ornamental designs but they lacked appropriate [illegible] When examined under the microscope, those perforations leave no room for doubt that they were laboriously made by means of sharp flints.

To my great astonishment I discovered also some Ariapic statuettes, one of terracotta made in a very life like manner, and another of stone, in the shape of a pillar, rounded above, but only ten centimetres (about four inches) in length In this shape I have seen Priapus everywhere represented in the temples of India I found also a small figure of the same subject only three centimetres in length, made of a very beautiful white and black marble which does not exist at all in this country I have no doubt, therefore, that the Trojan race of the stone period worshipped Priapus as a god and belonged to the Indo-Germanic family, having brought its worship from India, where, as is known by all, the god of creation and destruction, is portrayed and worshipped in the shape of Priapus But not only were the inhabitants of the Troas of Indo-Germanic descent, but in all probability they were also the ancestors of the great Hellenic race, for, as has been mentioned, on Tuesday, and again later, fragments of vases were found bearing the sculptured head of an owl I found also a similar head made in artistic manner of hard stone All these heads must have been likenesses of the head of the progenitor of the bird of Pallas.

I find also in the strata of the stone period numerous teeth of the wild boar which were uniformly sharp to serve as tools, and many spear-heads of hard, black stone, so dull, however, that a giant's strength would be required to slay a wild boar with them besides a very great number of hammers axes and handmills, consisting of two stones, one side being convex the other flat I find also an abundance of knives made of flint some looking like true knife blades, while the majority are simply sharp pieces of flint besides arrow heads and sometimes small spoons of bone and clay I find many fragments ten centimetres long and three and a half wide and of unknown use, which resemble whetstones, and a great number of round, flat stones, five centimetres in diameter, one side of which is colored with red paint. Finally I meet with many round smooth pieces of baked clay in the form of a quoit with a hole in the center and many stone mortars

I hope the reader will not smile at my inability to boast of the discovery of statues or other treasures of art I had no thought of being able to find such things on this spot My demands were very limited The only object of my excavations was that I might find the true site of ancient Troy concerning which a hundred savans have written a hundred, excellent treatises while no one had until now attempted to discover it by excavations And if I do not attain this object of mine I shall again consider myself most fortunate if I succeed in reaching by my excavations the greatest darkness of pre-historic times, and in enriching science by the discovery of a few curious pages of the most ancient history of the great Hellenic nation In stead of discouraging them, therefore, the age of stone has, on the contrary augmented my longing desire to reach the virgin earth which was trod by the first inhabitants of this land. I wish to reach it even if I must dig to the depth of fifty feet

A 'Shyster' Defined

In the suit for libel and $50 000 damages brought by 'Yamhill' Newby, in San Francisco, against the *Alta* for having called him a shyster, the following testimony was given

Delos J Howe Sworn—Am local editor of the *Evening Bulletin* Have been admitted to practice in the District Courts and have practiced there Have frequently seen Mr Newby in the Police Court Have known him three or four years Know his reputation as to professional conduct, and it is bad Have noticed contests frequently in the Police Court between Mr Newby and others as to who should represent particular parties The definition of the word shyster as we understand it in journalism is men who are not lawyers but who profess to be, for the purpose of obtaining money or men who being lawyers leave their offices and hunt for business at the doors of the Police Courts [illegible] not waiting for business to come to [illegible] the office of the [illegible] Attorney for people who are [illegible] with those who wish to complain [illegible] consulting it men who will introduce themselves to such people men [illegible] incubate the Police Court constantly will enter the office of the Prosecuting Attorney and in his absence volunteer to perform the duties which the law devolves upon him They are an [illegible] set They will take fees that are below the general rate and altogether too small The shyster will take anything for his services He will divide plunder with thieves He will take our tickets pawn tickets rings and watches He will take the tools belonging to a man sentenced to the county jail and tell him he will not need them there He will accept the spectacles of a half blind prisoner anything in fact that he can obtain He will represent to the prisoner before or after conviction that he has the ear of the court and that he can by his influence over the court procure a reduction of a fine or a reduction of term of imprisonment He will buzz the Judge as the term is on the bench before or after the trial for these purposes I have seen Mr Newby late and early night and day around the Police Court and the office of the Prosecuting Attorney soliciting business Have frequently heard him ask parties around there what business they had there, and have heard him offer to take cases I think Mr Newby comes within the definition of a Shyster

A New York dispatch of March 8th says that ex Controller Connolly has taken leg bail and left his creditors to pay money bail The immediate cause of his flight is said to be threats of former confederates His bail is $515 000 on all suits brought against him His nephews and son in laws furnished the principal amount and if he does not return, his loss will fall on his immediately family

The French cable company have decided to lay another cable to America As it will be under the management of the present combination however, we cannot expect any reduction from the exorbitant charge of $1 50 per word until the proposed opposition lines are in operation

FINANCE AND COMMERCE

SATURDAY EVENING March 23 1872

Gold in New York, 110

Portland Legal Tender quotations 90½c buying and 91½c selling.

The steamship *Idaho*, for San Francisco, left on time this a [illegible] She carried away 630 tons produce.

The steamship *Oriflamme* from San Francisco arrived this aft[illegible] She brought up a cargo of 630 tons assorted merchandise A copy of names of consignees and number of packages for each is given below

The bark *Almatia* will be ready for sea by Wednesday Her cargo will consist mostly of Flour

The amount of assorted merchandise arriving is very large Within the past nine days have been received from San Francisco alone all of 2 900 tons and yet mail advices confirm previous reports that there was a great lack of tonnage to accommodate the freight offering Although these goods, or at least one-half of them are back freight per overland rail yet our leading firms state that the trade has commenced so strong, and so many new buyers are [illegible] here who heretofore purchased in San Francisco, that they will have to duplicate their orders in several lines. In the Grocery line we note a very large increase in the volume of trade, with leading goods moving off rapidly The call from the interior for Raw Sugar is very strong which owing to the large stocks is met at current rates, In Refined our leading houses find difficulty in keeping up assortments

Produce Market.

WHEAT—The increased inquiry noted by us appears to have been in consequence of the impression that better prices will rule. Our mail advices state that the last vessel chartered for Liverpool in San Francisco received £3 5s This would seem to indicate scarcity of desirable tonnage We note a sale to-day of 800 sks at $1 80 per cental sacked; also 1 200 centals in the interior at rate, delivered here of $1 65 per cental The latter price is below the market for desirable lots

FLOUR—The *Idaho* did not take out as much as it was thought she would The *Almatia*, now on berth, will take out about 4 000 bbls. The *Oriflamme* will take but little as the most of her tonnage room has been secured for Wheat. The local trade is fair San Francisco mail advices give lower prices ruling there but of this we have been advised by telegraph Prices here remain unchanged

OATS—We are informed of an offer made for a small lot of choice Oregon for seed at 2¼c ℔ lb but refused

HAY—Prices continue to rule weak at $22 50 ℔ ton for baled Timothy Other descriptions $10 50@18 ℔ ton

POTATOES—Market well supplied with Humboldt and prices shaded. We note sale of 200 sks Humboldts at $1 05 ℔ 100lbs, and 180 sks at 1c ℔ lb Jobbing at 1¼c

FEED—Market continues to rule steady for Bran at $22 50 ℔ ton Middlings Chops, etc, $35@45 ℔ ton Oil Meal, $47 50@50 ℔ ton

EGGS Market steady at 22c ℔ doz

General Merchandise.

LUMBER—The February receipts of Lumber at San Francisco show an aggregate of 9 758 000 feet board measure including 6 886 000 feet Pine and about 2 000 000 feet of Redwood; also 1,000,000 Shingles and 1,300 000 Laths

FISH—Gloucester dates of February 28th report the old stock of George's Codfish as exhausted Dutch Herring were active at New York at last mail dates, all the February receipts being taken at advancing prices the market closing firm at $1 35 for round lots and $1 50 for jobbing parcels

GLASS—The New York importers of Window and Picture Glass have agreed upon a general advance in prices and the American makers of Window have followed suit The reasons given are the increased cost of soda, ash and other materials and the enhanced rates of labor The advanced schedule went into effect on the 1st of March and is as follows for foreign descriptions, per box of 50 feet (single thickness) 6x8 and x9 $8 $7 $6 50 and $6 respectively and other sizes in proportion Same sizes of American Window are, $8 25, $7 75, $6 75 and $6 25 respectively and other sizes in proportion with the usual discount of 50 per cent cash in 30 days Our market as well as the San Francisco fully sympathizes in the advance

FURS—The March sales by the Hudson Bay Company at London shows a general advance as follows Red Fox sold at 10 ℔c; Martin 15 Bear 25 Kitt Fox 25 Otter 30 Fisher 30 Silver Fox 40 Cross Fox 40; Sea Otter 40 Mink 50 White Fox 50 Skunk 70 and Lynx 80 ℔c advance on previous sales of similar Furs.

CHEMICALS—English advices state that for the week ending February 26th, say there has been increased activity in the chemical trade and orders both for home and export have been even larger than before Alkali manufacturers are almost entirely without stocks and it is with considerable difficulty that consumers can obtain sufficient supplies for present requirements At this season manufacturers have usually stocks to meet the export trade but this year they are bare and this will certainly have the tendency to raise prices still further Caustic Soda and bleaching powder can scarcely be obtained and extreme prices are being asked Soda Ash Bi-Carbonate of Soda and Soda Crystals are in good request and for the latter makers are now asking £7 10s Nitrate of Soda is obtainable at 14s 9d Formerly the price of this article generally advanced at this time but this year the contrary has been the case which strengthens the assumption that this salt is not in favor with agriculturists In Muriate of Potash there has been little doing In [illegible] and Bichrome have not been so in [illegible] ed (Chlorate is scarce and advancing. A fair business has been done in sulphate of Ammonia, without change in value. Sulphate of Copper slightly declined. Oxalic and Tartaric have been in fair request.
